

Number of beneficiaries according to their Gender for Climate Change Adaptation Program

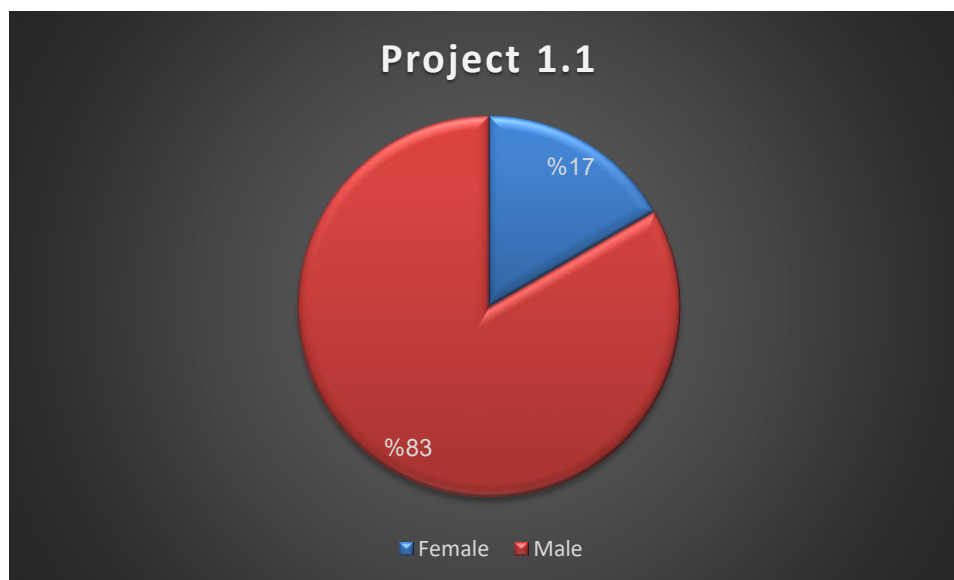

During implantation the Climate Change Adaptation Program, 29% Female were participated for training, workshop, TWG, TC and SC till now thorough the Program/ Project aiming to adapt with Climate Change.

Project number and name	Executing Entities	Male	Female	Total
Project (1.1): Reuse of Treated Wastewater for on-farm Agricultural Adaptation as a Tool for Integrated Water Resources Management at Wadi Mousa	Petra Development Tourism Region Authority (PDTRA)	40	8	48
Project (1.6): Climate Change Adaptation, Building Resilient Food Security Systems through Extending Permaculture Design and Technologies in The Jordan Valley and beyond	National Center for Agricultural Research (NARC)	112	104	216
Project (2.1): Strengthening the Capacities of Poor& Remote Communities to Better Adapt to Climate Change Adverse Impacts (At the Four Geographical Zones of the Jordan Valley and Wadi Mousa)	Ministry of Environment (MoE)/ The Royal Scientific Society (RSS).	141	48	189
Project (2.3): Jordan Valley Water Sustainability and Agribusiness Competitiveness	National Center for Agricultural Research (NARC)	1045	375	1420
Total		1338	535	1873

Project (1.1): Reuse of Treated Wastewater for on-farm Agricultural Adaptation as a Tool for Integrated Water Resources Management at Wadi Mousa, been implemented by Petra Development Tourism Region Authority (PDTRA), Number of beneficiaries during implemented the training and workshop according to Gender:

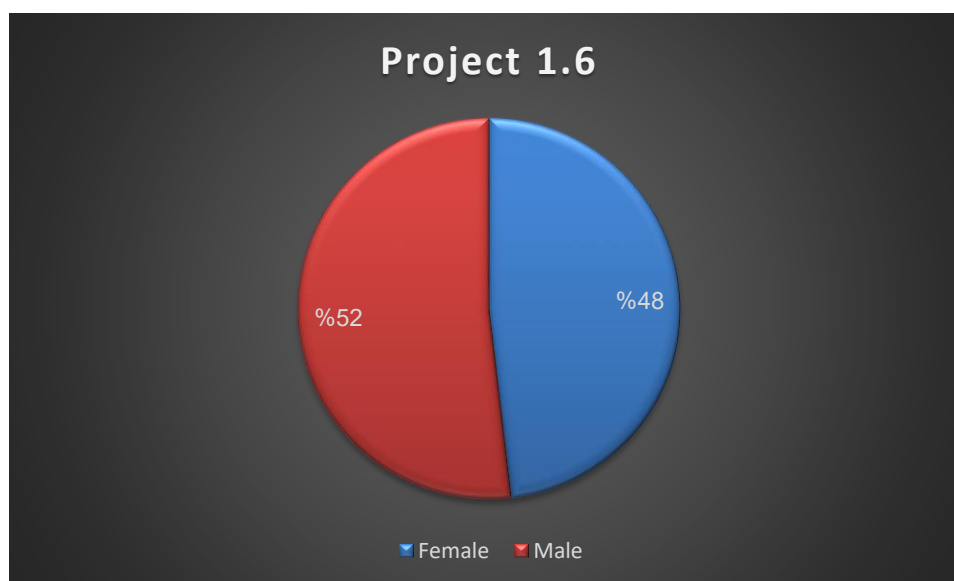

#	Name (workshop, training and other)	Type of beneficiaries	Male	Female	Total
1	Expansion of the Project Area for Green Petra “Cultivate of 350 Dunums with fruit trees as a new expansion of the project”	Owner land	40	8	48

Number of beneficiaries according to their Gender for Climate Change Adaptation Program

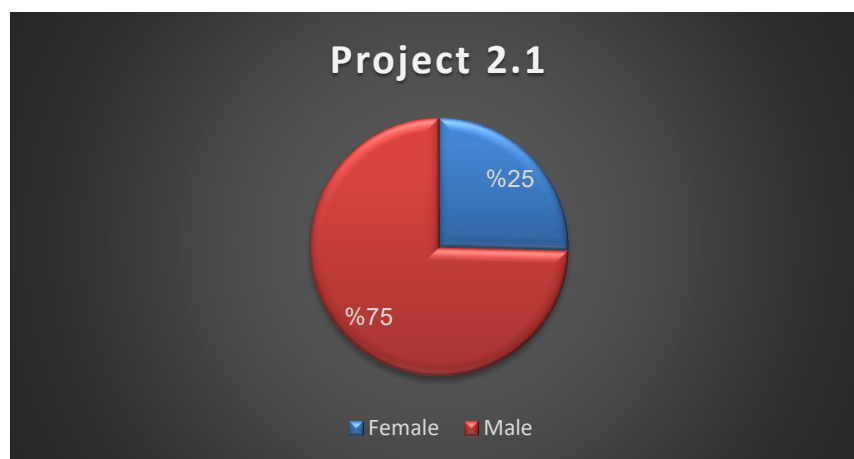

Project (1.6): Climate Change Adaptation, Building Resilient Food Security Systems through Extending Permaculture Design and Technologies in The Jordan Valley and beyond, has been implemented by National Center for Agricultural Research (NARC), Number of beneficiaries during implemented the training and workshop according to Gender:

#	Name (workshop, training and other)	workshop No	Type of beneficiaries	Male	Female	Total
1	Permaculture Design Certificate Course	2	Researchers	27	9	36
2	Permaculture principles for farmers	1	Farmers	35	20	55
3	Permaculture principles for students	1	students	50	75	125
Total				112	104	216

Project (2.1): Strengthening the Capacities of Poor& Remote Communities to Better Adapt to Climate Change Adverse Impacts (At the Four Geographical Zones of the Jordan Valley and Wadi Mousa), Number of beneficiaries during implemented the training and workshop according to Gender:

#	Event	Activity	Type	Attendance number		
				Female	Male	Total
1	Training of the Trainers	4 workshops	Training of Trainers workshops were designed and implemented to inform/educate group of representatives from the Water Users Associations (WUAs) about the climate change and its impacts on the agriculture sector in Jordan and to raise awareness toward the necessity of implementing the appropriate adaptive measures to tackle the negative impacts of the climate change.	6	26	32
2	Peer-to-peer training	8 workshops	A peer-to-peer workshops were implemented to disseminate knowledge and exchange experiences between the farmers-communities. Also, The seminars curricula focused on: providing explanation of the climate change science, climate change projected impacts, explanation of vulnerabilities and adaptation methods as well as the communities' adaptive capacity.	35	57	92
3	Adaptive measures	Two pilots in JVA	Two adaptive measures were implemented on the ground in three selected farms in Jordan Valley. The selection of the appropriate adaptive measures were completely aligned with the technologies mentioned in the "Climate Change Technology Needs Assessment Report, 2015-2017" which prioritized the most three appropriate technologies in both the Water and Agriculture sectors in Jordan.	7	58	65
Total				48	141	189

Project (2.3): Jordan Valley Water Sustainability and Agribusiness Competitiveness, has been implemented by National Center for Agricultural Research (NARC), Number of beneficiaries during conducting implemented the training and workshop according to their Gender:

#	Event (project activities)	Date	Place	Attendance number		
				Female	male	Total
1	A workshop at the Council of Water Users Associations in Ghor al-Safi	13/12/2017	Ghor Al Safi/ Ghor Haditha Water Users Association	4	16	20
2	A workshop at the Council of Water Users Associations in the Northern Jordan Valley	26/12/2017	Council of Water Users Associations of the Northern Jordan Valley	4	10	14
3	A workshop at the Council of Water Users Associations in Southern Shouneh	11/1/2018	Southern Jordan Valley / Southern Shouna Water Users Association Council	4	15	19
4	A workshop at the Council of Water Users Associations in the Central Jordan Valley	22/1/2018	Central Valley / Pump 55 Cooperative Society for Irrigation and Agriculture	3	23	26
5	Project launch workshop	24/01/2018	Mövenpick Hotel, Dead Sea	30	50	80
6	The first meeting of the Agricultural Business Committee	12/2/2018	National Center for Agricultural Research	4	8	12
